Katrin, 32
Mother of two, Innsbruck

Welcome to my world!

« You only move into your home once. Think about “What can I easily replace later on – and what defines my home for years to come?” The flooring is here to stay. Most likely even longer than my two girls. That’s why we thought carefully about the choice of flooring type, decor, and also the brand. Please see the results on the pages to follow. Welcome to our home!

»

EGGER.

More from wood.

Since establishment in 1961 in Tyrol / Austria, everything at EGGER is about wood. This living material is unequalled in maintaining a healthy ambient air, creating a pleasant atmosphere, and providing quality. This is what we believe in, and you can be sure that with every EGGER flooring you bring a little piece of nature into your home.

But there are also other reasons why millions of people across the world share their homes with EGGER. The diversity of decors – in the case of EGGER laminate flooring you can currently choose from 80 designs – giving you the possibility to have free reign for your personal style. Due to the extreme robust properties, our products will be with you for many years to come.

We see ourselves as part of your life. This is what we work for. And this is why here at EGGER, we continue to develop out flooring further and further.

Overall » One home.

Three different flooring types.
One surface design.

Nothing has a greater impact on the atmosphere of your home than the flooring. Previously when selecting a floor, the consumer was forced to make compromises, your preferred decor couldn't be used in the bathroom because it wasn't suitable for wet areas for example. This is now all in the past! With the new EGGER collection, you can now enjoy one decor throughout your home. The floor characteristics can be adapted to the requirements of each room. A cosy atmosphere in the living room. Robust properties in the entrance way. Quiet from the children's rooms, even with the wildest games. And in the bathroom the floor has no fear of water!

How does this work? One decor, three different EGGER floor types with individual advantages:

Your specialised retailer is happy to advise you.

All EGGER floors can be combined with each other using coordinated connection profiles. Allow your specialised retailer to advise you on the right floor for each room!

For commercial and wet areas:

**The best of wood and design:
EGGER PRO Design Flooring.**

For life's relaxed moments:

**A floor designed for comfortable living:
EGGER PRO Comfort Flooring.**

For the living areas:

**The perfection of a classic:
EGGER PRO Laminate Flooring.**

EPL063

Don't settle for compromises.

Through their high quality, EGGER floors stay with you for a large part of your life. Professional installation not only enables a claim to our generous guarantees. It also lets you enjoy your new floor even more. With specialist

knowledge and experience, your installer has a solution for particularly difficult places such as pipe cuttings around radiators, uneven floors, or transition areas towards tiles or carpeting.

« We installed the flooring in our former home ourselves. Certain areas have started to really bother me over the years: the gaps that were too large around the radiators, the noise when walking in the living room, or the slight movement of the floor in the children's room. This time we asked a floor installer to do the job. The result – absolutely perfect!

»

EPL114

Choose in line with your taste: With 80 decors, pick the one floor that is a perfect match for your design style.

Made for life.
The EGGER
laminate flooring.

Relax.

Protecting the new floor? Don't worry, we've already thought about it. The surface of EGGER laminate flooring is exceptionally robust. In addition to the impact of significant sun exposure. EGGER flooring is resistant to UV light and therefore maintains colour.

Extra robust: Moving furniture leaves no trace, even after many years.

A natural touch: The wood structure of the EGGER laminate flooring provides each room with a special atmosphere.

Naturally, wood.

Certainly a good feeling.

The surface texture gives EGGER laminate flooring more than just a strikingly authentic character. It also ensures the highest level of walking safety through anti slip properties.

Even if your children love to slide – this is one type of fun our floors choose not to allow. And to prevent a charged atmosphere, EGGER laminate flooring is equipped with antistatic technology.

The family playground: No softeners, no PVC, no toxic dyes. EGGER laminate flooring consists almost 100 percent of PEFC-certified wood.

Tranquil zone: The right underlay insulates your floor from moisture and cold. And importantly, efficiently absorbs sound!

A system for well-being.

Everything from a single source:
From skirting to floor cleaning
products – the EGGER accessories range
is perfectly coordinated and guarantees
extra-long service life.

Certainly not afraid of water.

EGGER has removed the fear of water with laminate using Aqua+ technology. With the help of a specially developed coreboard, these floors are also suited for wet and commercial areas! Definitely more economical than tiles, they also combine hygiene with comfort, even the use of a steam cleaner is now possible.

Harmonious accessories: Skirting boards in decor colour, complete the general appearance.

Ideal playground: Childs play, jumping around, painting – no issue.

There is no limit to your creativity.

Enjoy the freedom to live out your style. A floor with a wooden look in the bathroom? Stone effects that feel warm? Or ornamental patterns on the floor as a contrast to the fixtures? Speak with your specialist flooring consultant. You will be impressed by all the possibilities!

EPL046

Wood reproductions

The classic for a warm, cosy atmosphere. Unsurpassed in the selection of decors and the range of colour tones and types. In addition, boards are available in a wide variety of formats and as two-plank, three-plank, and herringbone look.

EPL004

Stone effects

The surprise when walking barefoot – looks cool, but feels warm. From elegant marble to strong slates, these decors are particularly popular for kitchen, hallways, and bathroom.

EPL008

Creative decors

Decorative designs add that certain extra special touch to every room. As a contrast to the furniture or as a feature in the children's room – this is where your creativity can be used.

Create an atmosphere!

The colour tone can significantly enhance the atmosphere of a room. Cosy? Lively? Or a little bit of both? The colour of the floor is your starting point.

EPL078

Dark colours help a home to feel cosier, and smaller rooms look larger.

EPL028

Lighter tones can create a friendly and lively effect.

« The living room is our oasis of relaxation after a long day. We want it to be cosy, choosing the decor “White Inverey Pine” (EPL028).

»

EPL048

Prefer both? The medium-light decors are a compromise, capturing the best of both worlds.

The tools of interior designers.

Board formats chosen correctly.

The impression created by the room can be influenced significantly using a board of the perfect length and width. To highlight a generous space, select larger formats.

Small rooms can benefit from a medium sized board. The use of bevelled edges further enhances the effect of the selected style.

Medium: 1291 × 135 mm

The ideal solution for small spaces.

Classic: 1291 × 193 mm

Suitable for any room, boards have balanced proportions.

Large: 1291 × 246 mm

Produces the effect of generous space and works particularly well for country house decors.

Long: 2 050 × 245 mm

The choice for large-surface room designs and open-plan living. Also increases the effect of long, narrow rooms.

Kingsize: 1291 × 327 mm

Large rooms deserve our Kingsize. Decors unfold their full beauty through both wooden and tile decors.

Atmosphere part 2:

Breathe life into your home!

Allow the decor to control the impression made by your home. Harmonious tones contribute to a calming atmosphere. A little boring? Introduce your customer to decors with a more lively vibe. For example colour play or natural features such as cracks and knots.

Homogeneous sorting soothes the general appearance.

A little boring? Colour play, cracks and natural knots in every single board have a lively effect on the room atmosphere.

Unreal and authentic.

Omnipore – Elegantly natural wood pore

Striking surface textures give character to your floor, and it is still easy to clean. The risk of slipping is significantly reduced thanks to our special surfaces fitted with R10.

Natural Pore – Authentic, decor-coordinated woodgrain

Deepskin – Striking texture with depth

Mineral – Irregular, rough character

Smoothtouch – Natural and velvety surface

« We chose the board format Kingsize for our open-plan kitchen in order to make the room look even more generous. The natural and velvety surface Smoothtouch was used as surface texture. »

The trends in interior design.

The design preference shows off your own style, but also the signs of our time. EGGER works closely with

internationally known trend researchers to find the right floor for the right times.

Pure Nature

Warm and elegant, rustic and timeless: the embodiment of pure naturalness.

EPL029

Used Novelty

This is how creative, lively, and playful interior design can be. Used Look meets patterns, pale tones meet bright colours.

Modern Classics

Classics are reinterpreted and combined with new colour concepts.

Light Living

This trend looks bright and friendly, and is based on loft architecture and Scandinavian design. The design is reserved and allows furnishings to take the spotlight.

Perfection down to the details.

EGGER's innovation hasn't missed one detail of the improvements within laminate floors in the past 60 years. Click systems that provide additional stability? Surfaces that are difficult to damage? Moisture-resistant solutions? Technical redevelopments with one objective: Your joy and satisfaction when you come home.

The structure of EGGER laminate flooring.

- 1 Resilient, highly abrasion-resistant surface
- 2 Decor image
- 3 HDF swell barrier⁺ coreboard made of wood
- 4 Balancer

High quality

Hardwearing, with a robust structure. Modern surfaces in formats that are always new. Never before has it been so easy to create a good atmosphere inside the home.

Versatile

Desire for change?
No other flooring can be installed as quickly and easily as laminate. Want something new? Dismantling laminate flooring is just as easy.

Authentic

Looks like a beautiful real wood floor, and feels just like one too. New surfaces and board formats in woodgrain decors that are true to nature give the floor an authentic appearance in line with current design trends.

Long lifespan.

The best tip for the long service life of your EGGER laminate floor? Use the coordinated EGGER system products. From the correct underlay to the skirting

in the decor of the floor, through to the special cleaning product – a perfect finish is as certain as the long guarantee.

Underlays

Adapted for the sub-floor and your requirements: Vapour barrier? Noise reduction or additional heat insulation? It's your choice.

Skirting boards and floor profiles

6 or 8 cm height? White or decor design? Our selection gives you complete freedom.

Movement profiles guarantee the stability of the floor, also in large rooms. EGGER offers various materials, colours, thicknesses, and lengths.

« I knew it the first time I walked across the floor, everything was done properly. I instantly felt at home, the floor was perfect.

»

Care and installation tools

System-related care products complete the range. Their regular use ensures the lasting beauty of the floors. We offer the right solution for special installation projects and small repairs.

One brand. All options.

EGGER covers the entire range of wooden flooring in the laminate, comfort, and design flooring segments. With our three flooring categories you have a solution for every situation.

EGGER PRO Design Flooring.

- The look & feel of wood – but as easy-care as ceramics.
- Seamless floor design in all rooms – even the bathroom, using moisture-resistant properties.
- Long-term beauty – due to the microscratch resistant and self-healing surface.
- Also suitable for commercial applications.

EGGER PRO Comfort Flooring.

- The look of a wooden floor board, but produced with cork.
- So warm, barefoot in all seasons with the insulating cork layer.
- Quiet footfall and more comfort using a double impact sound insulation.
- Healthy atmosphere: good for your health, environmentally-friendly, and 100 % PVC-free.

EGGER PRO Laminate Flooring.

- Perfect look. Pleasant feel. Best price-performance ratio!
- Resistant and strong.
- With Aqua+ technology, also suitable for wet areas.
- Large choice of decors.

All EGGER flooring provides the following advantages:

- Long product life and colour fast, even in the case of intensive sun exposure.
- Additional stability through patented installation systems.
- Certified anti-slip resistance.
- Tested quality: EGGER flooring exceeds legal standards. Every board is checked prior to delivery.
- Excellent noise insulation through underlays adapted to the type of flooring.
- Generous guarantee due to high product quality.
- Sustainable, 100 % recyclable.
- Naturally wood-based and 100 % PVC-free.

The decision made easy.

How can you create accents with a flooring decor? Which decor works with your interior? EGGER is happy to assist you in finding your new favourite floor. We provide numerous services to this end.

Virtual room visualisation. (VDS)

What would the new decor look like in your home? The answer to this question is available on the EGGER website or with your retailer. With the help of the room visualisation software VDS, you can install the desired decor for viewing inside your home – virtually. This will give you an idea of how well the new floor will go with your interior.

The best interior design ideas from around the world.

Be inspired: Our designers collect the best living trends and ideas on our website www.egger.com/inspiration and on our Instagram account. You will soon overflow with new ideas for your home?

Order your decor sample.

Touch and try out: Nothing is better than seeing a real piece of your desired decor inside your home. We'd love to send you a decor sample. More details are available at www.egger.com/shop.

At home in nature.

EGGER has taken the life cycle in nature as a model in order to ensure production is as resource-friendly as

possible. This begins with the PEFC-certified raw material. We use only wood from forests that have proven sustainable management. We invest in fully integrated locations in order to limit transport to a minimum. Sawmill, chipboard processing, and laminate production are right next to each other. Our network of global locations saves on transport emissions, as does our

decision to give priority to rail transport. Waste? EGGER doesn't really have any. All by-products are reused to protect resources. Environmental certification and labels allocated to EGGER, such as the coveted Blaue Engel or the strict international US standard CARB 2, are sufficient motivation to continue on this path.
